SHAREWARE >>EXPRESS>>

1908-D Ashland Street
Ashland, OR 97520

We've lowered the prices on -- EVERYTHING! Most programs are now only \$3.69 each. And it's only \$3.69 even if it takes two disks for the 5.25" version. (Not everything is available in 5.25", though.) Some

programs are only \$2.99!

But wait! For an even better deal, we've combined many of our best-selling programs into ExpressPaks -- four to seven programs all for \$4.99 or \$7.99. That brings your price down to as low as \$0.84 per program!

There's even more!! If you order early enough, you can use the coupon on page 46 to save an additional \$2 to \$20!

These changes make us the best deal going. Just compare our prices to the competition -- program to program. You'll often save 50% or more. Don't delay! Order now.

Take care,

Minimum System Requirements

An IBM XT or compatible, 640k RAM, DOS 3.3 or higher, one floppy disk drive and hard disk.

Please Note

Many programs are distributed on high density 3.5" disks which require a high density disk drive. High density disks will not work on an XT or older AT that does not have a high density 3.5" disk drive. If you have one of these computers, look for code **XT-OK** in the program requirements.

Additional Requirements

Where necessary, additional requirements are listed at the end of each program description.

XT-OK	will run on XT or older AT computer
286+	286 processor or above
386+	386 processor or above
486+	486 processor or above
2 meg+	2 megabytes of RAM or more
4 meg+	4 megabytes of RAM or more
DOS 5.0+	DOS 5.0 or higher
CGA+	CGA, EGA or VGA graphics
EGA+	EGA or VGA graphics
VGA	VGA graphics
Mouse	Microsoft compatible mouse
Win 3.1	Microsoft Windows 3.1
SB	SoundBlaster or compatible
ASP	One or more of the programs is authored by a member of the Association of Shareware Professionals

PHONE
Call 800-346-2842

FAX
Call 503-482-4230

MAIL
Order form on p. 47

Our staff is available to take your order during regular office hours: Monday - Friday from 9-4 Pacific Standard Time. But you can place your order 24 hours a day. When we're not there or lines are overloaded, our voice mail system will record your order. Be sure to leave a phone or fax number in case we have any questions. Additional ordering information is on page 46.

QUESTIONS & ANSWERS

Q & A

Q: What is Shareware?

A: Shareware is an exciting marketing method which allows you to try top-quality software before you pay the author. With Shareware, you cannot be disappointed spending money for a program that's not right for you. The small fee you pay to us covers only the duplication and distribution costs, and permits you to evaluate the program. If you continue to use the program, you must send the author an additional payment which may entitle you to technical support, printed manual, bonus programs, and more. Your payment supports authors, allowing them to continue writing newer and better Shareware programs.

Q: If I decide not to register, what should I do?

A: If you decide not to use a program after evaluating it, you should erase it or give it to a friend for evaluation. You are not expected to register.

Q: Where can I find the author registration fee?

A: Information on registration fees and how to register is found in a disk file on each disk you receive. In addition, we show the registration fees in the index on page 45.

Q: Where is the documentation?

A: Documentation is in a documentation file on the disk. Your order will include in-

formation on how to view the documentation on screen or print it out.

Q: What about viruses?

A: Order with confidence. All programs are carefully tested for viruses.

Q: How do your prices compare?

A: We think our prices are the lowest in the industry. **Don't be fooled.** Other companies charge for multiple disks when we have the same program for much less. (Example: One Must Fall can cost up to \$35.60 on 8 disks -- whew! -- from them versus \$7.99 on 2 disks from us. It's the same, identical program.) Our new ExpressPaks are your very best bargain. Each ExpressPak collection has several programs which brings the price per program down as low as \$0.84 each.

Q: What does ASP mean?

A: The notation 'ASP' indicates the program (or at least one of the programs in a collection) was written by a member of the Association of Shareware Professionals. That's a good thing. See box below.

Our Guarantee

Our disks are guaranteed to be error-free, checked for viruses, and to contain the software you ordered. If the disks are not compatible with your system or are defective or mislabelled, we'll gladly make a one-time exchange or issue you a credit good for a future purchase. This guarantee is valid for one full month from our invoice date. Credits exclude shipping and handling. Sorry, no refunds.

Authors: How to submit programs for evaluation

1. Mail to Shareware Express, Attention: Submissions, 1908 Ashland Street, Suite D, Ashland, OR 97520.
2. Include a complete description of the program and its features. Be sure to include minimum hardware and software requirements.
3. Promotional materials concerning your program are welcome, but not required.
4. Are you a member of ASP? If not, do you agree to abide by ASP guidelines (no crippling, etc.)? We will notify authors whose programs are selected. Due to the volume of programs submitted, we are unable to notify authors when programs are not accepted.

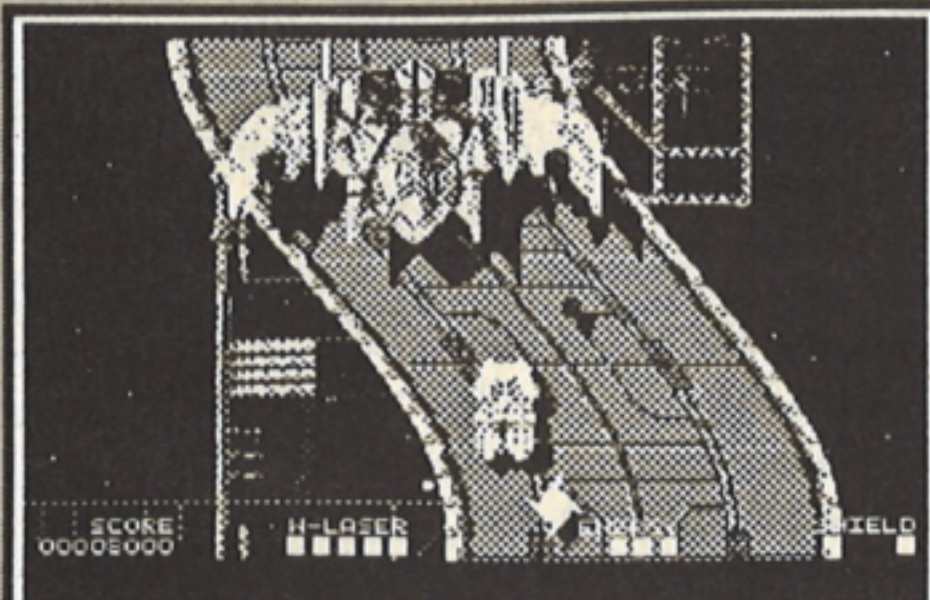

Association of Shareware Professionals (ASP)

Shareware Express is an Approved Vendor and Associate Member of the **Association of Shareware Professionals (ASP)**. ASP wants to make sure that the Shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442-9427 USA, FAX 616-788-2765 or send a CompuServe Mail message to ASP Ombudsman 70007,3536.

PRESIDENT'S PICKS

New!

Burn up the freeway with Highway Hunter

Highway Hunter is a fast and furious arcade-style blast fest in which you guide

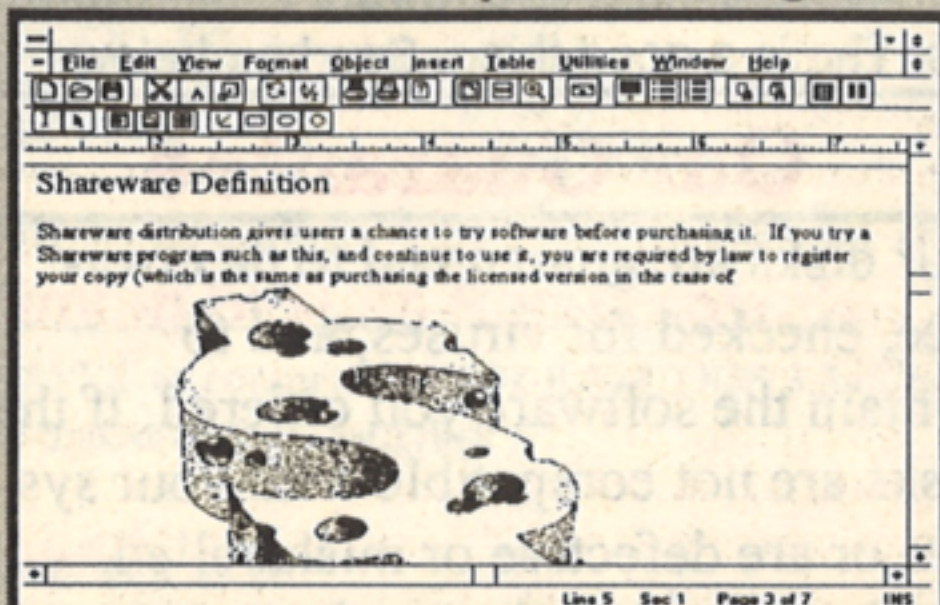

your advanced assault vehicle, the MASTER, through endless roads of destruction and carnage. Fight through beautiful 256-color parallaxing scenery and hundreds of relentless foes. Speed through the terraformed Earth wreaking havoc on mutinous machines. Laugh in the face of HUGE boss tanks, and power up to awesome proportions in this frantic shooter! Great sound track and the kind of play you'd expect from a coin-operated arcade machine. Requires: 386+, VGA. Optional: SB, joystick.

Highway Hunter

Extraordinary feature-rich Windows word processing

WordExpress is a word processor for Windows 3.1 that will make you think

you're running one of those \$395 programs -- except it runs a whole lot faster and takes a lot less room on your hard disk. WordExpress does it all: letters, memos, fax cover pages, newsletters, and brochures. It has the tools to create both simple and sophisticated documents. Features include: WYSIWYG editing, style sheets, headers and footers, spell checker, multiple columns, borders, automatic fields (time, date and page number), tables, import pictures (WMF, TIF, PCX and BMP), and much, much more! Requires: Win 3.1.

WordExpress

3.5" Disk # X9288..... \$4.99

New!

Get tons of free computer and health stuff plus gov't freebies!

This disk includes three great sources of freebies.

CompuFreebies is a listing of 83 companies

who are willing to give you valuable stuff absolutely free: over 60 disks including demos and working programs, 10 free videos, books, posters, technical reports and more.

Check out **Government Freebies** for free stuff like a beautiful, full-color congressional wall calendar. Or a free Christmas tree. You may be eligible for free or low-cost medical care. Get the government to pick up the tab for foreign travel.

A simple request to one of the sources listed in **Health Freebies** is all that's required to receive any of 77 free health-related publications, samples, posters, videos, and more. Requires: no special requirements.

Fabulous Freebies ExpressPak

3.5" Disk # X9296 \$4.99

CLIP ART

Hilarious, silly and clever cartoon images

There really is a difference in the quality of clip art. And this cartoon collection is really worth owning. You'll get

over 4.5 MB of images in the most popular graphics format -- PCX. You'll also get CompuShow, a graphics viewer and slide show program. Requires: CGA+, and your own program that supports PCX graphics. Two disk set.

Cartoon Clip Art

3.5" Disk # X9284-2\$7.99

Over 200 Sports graphics

Capture the excitement of your favorite sporting events -- football, basketball, baseball and more. You'll have PCX images of action scenes, NFL football helmets and

lots more. In fact, there are over 4 MB of sports artwork in this collection. You'll also get CompuShow, a graphics viewer and slide show program. Requires: CGA+ and your own program that supports PCX graphics. Two disk set.

Sports Clip Art

3.5" Disk # X9279-2\$7.99

Over 3 MB of Religious Clip Art

Here's another huge collection of artwork - this time with a religious theme. This may be the only

collection you'll ever need to really improve the quality of religious oriented printing. These graphics are in PCX format -- the most common graphics format. If your printing program doesn't support PCX, we'd suggest you also try Graphic Workshop for DOS (item #X3580, \$3.69) or Paint Shop Pro for Windows (item #X3561, \$3.69). Either of these programs will convert PCX graphics into other formats. The collection also includes CompuShow, a graphics viewer and slide show program. Requires: CGA+ and your own program that supports PCX graphics. Two disk set.

Religious Clip Art

3.5" Disk # X9267-2\$7.99

All the Holiday Clip Art you need

Over 3.5 MB of holiday artwork in PCX format. Everything from Santa Claus to Thanksgiving to Easter and more. These are high quality images that won't go all jaggy when you use them. No royalties to pay! You'll also get CompuShow, a graphics viewer and slide show program. Requires: CGA+ and your own program that supports PCX graphics. Two disk set.

Holiday Clip Art

3.5" Disk # X9275-2\$7.99

Over 300 Great Business Graphics

We've put together a terrific collection of artwork that's perfect for businesses. You'll get almost 4 megabytes

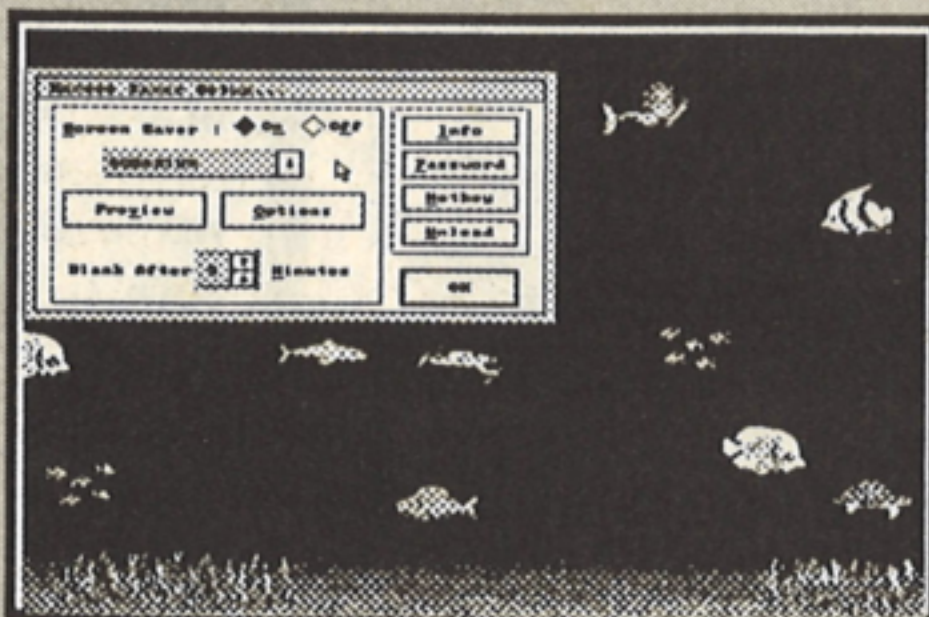

of high quality artwork that you can use royalty-free

in your publications, pamphlets, flyers, anything! These graphics are in PCX format -- the most common graphics format. Check your own graphics program to see if it accepts PCX format. It probably does. If it doesn't, we'd suggest you also try Graphic Workshop for DOS (item #X3580, \$3.69) or Paint Shop Pro for Windows (item #X3561, \$3.69). Either of these programs will convert PCX graphics into other formats. We're including CompuShow as part of this collection, too, so you can look at the graphics or even create your own slide show. Requires: CGA+ and your own program that supports PCX graphics. Two disk set.

Business Clip Art

3.5" Disk # X9263-2\$7.99

Faster than a flying toaster -- it's Phantom Screen!

This ingenious new screen saver for DOS not only protects your monitor from screen burn,

but it's just plain fun. The fun stuff includes rubber plane (it stretches and flaps as it flies), windshield wipers (Those darned bugs -- hit the windshield wiper, Marge), dinosaur (will the marauding Tyrannosaurus catch the little man?). You also get the great standards -- aquarium, clocks and fireworks plus lightning and one of the most attractive changing kaleidoscope screens we've seen. You can leave a message on your screen or use scanned images or computer art. Many options. Works with DOS, not Windows. Requires: XT-OK, CGA+.

Phantom Screen

Fast organization charts and flowcharting in DOS

flowcharts & more

Edgeflow is a fast, feature-rich, flow-charting and diagram drawing tool for DOS. It makes quick work of complex problems with unique drawing

tools. Like remembering connections between boxes, automatically formatting groups of boxes, and allowing instant editing of text. When text gets too big for a box, the box enlarges automatically. Move a box and the connecting lines move, too. Great for flowcharts, org charts, data-flow diagrams and more. Requires: XT-OK, EGA+ or Hercules, laserjet or dot matrix printer. ASP.

Edgeflow

3.5" Disk # X3704\$3.69

Create stunning newsletters, resumes, greeting cards and more!

Startling power and simplicity! **GeoPublish** combines GeoWrite, a sophisticated word processor, and GeoManager, a powerful file organizer,

with the graphical, easy-to-use GEOS operating environment. **GeoPublish** is a complete WYSIWYG word processor and page layout program with advanced graphics abilities and tools like automatic wraparound and text rotation plus advanced imaging for better on-screen graphics and crisp, clear output from any printer. This program really flies! Requires: CGA+ and dot matrix or laser printer. Optional: mouse. Two disk set.

GeoPublish

3.5" Disk # X9179-2 \$7.99

Look up words and definitions in a split second

great computer dictionary

Wouldn't it be great if you had a computer dictionary ready at the touch of a key? Just press a hot key and it would pop up and find

the word you're looking for even if you aren't sure how to spell it. **Jorj** does that and more.

Jorj is a phonetic dictionary that runs as a stand-alone program or memory resident. Over 62,000 words and definitions. Many useful features including great color. Loads in conventional memory or extended or expanded memory.

Jorj

3.5" Disk # X9556..... \$4.99

Dynamite mini-word processor

great for laptops

What would you call a tiny word processor that has big features? Features like spellchecker, pull-down menus, split windows, readabil-

ity analysis, screen blanker, text to EXE and macros? How about **Breeze**? Perfect for quick letters, laptops or floppy only computers. Requires: XT-OK.

Breeze

5.25" Disk # X212 \$3.69

3.5" Disk # X3212 \$3.69

New! Four power tools writers love

Easy Word is probably the easiest word processor in the word. Powerful features include a spell checker, line drawing, table entry mode and macros.

Envelopes Plus prints envelopes, labels, and Rolodex cards from its database, dials phone numbers. Great for beginners up to small business owners.

Bigtext turns BIG text files (up to 700K or more) into compact self-displaying executable files that display text plus full color illustrations. Fantastic for manuals, documents, and catalogs.

JSpell is a state-of-the-art spelling checker with on-line help, lightning speed, user specific dictionaries, network support, undo, and more.

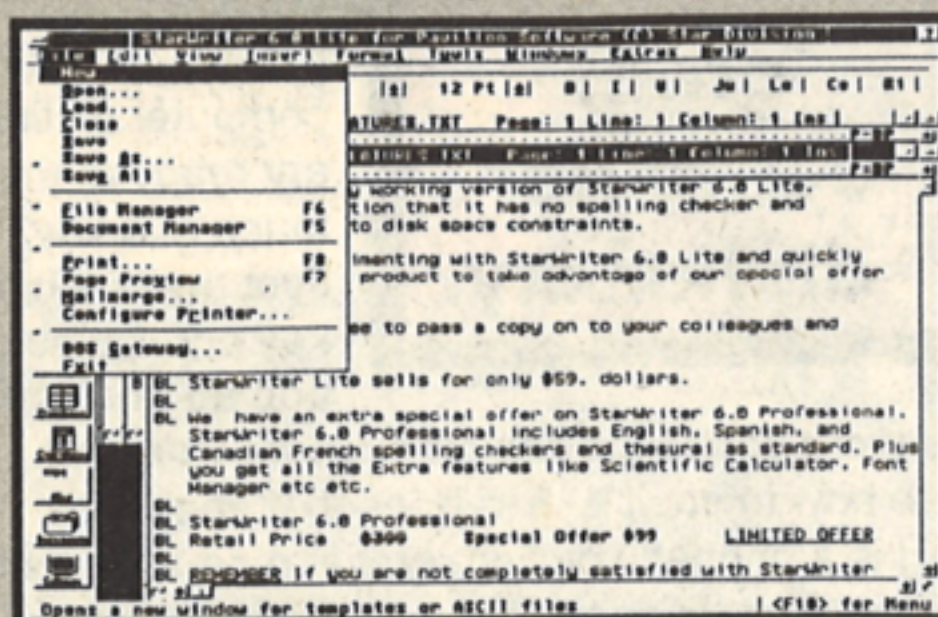

Requires: 386+, VGA. ASP. Optional: Mouse.

Writer's Tools ExpressPak

3.5" Disk # X9292 \$4.99

WORD PROCESSING & PRINTING

Take your word processing into the 21st Century

Starwriter is a word processor so advanced it's easy. You'll love the gorgeous screen and the pull-

down menus and click-on buttons that make the most difficult writing chores a breeze. Now includes spelling checker and Thesaurus. Partial features include: multi-columns, WYSIWYG preview mode, fancy borders and backgrounds, style sheets, marginal notes, easy "add in" of graphics (PCX, TIFF, IMG, GEM and more), scientific equation editor, "zoom" preview mode, 40 scalable fonts, print spooler, macros, outlining, footnotes and endnotes, form letters, macros, support for over 300 printers (dot matrix, ink-jet and laser), imports files from MS Word, WordPerfect, Ami, WinWord, Wordstar and more. Requires: CGA+ or Hercules. Optional: Mouse. Two disk set.

Starwriter

3.5" Disk # X9129-2.....\$7.99

WordPerfect users can create their own letterhead, fax cover sheets and more

The Letterhead Kit includes macros, graphics, and forms for WordPerfect for DOS (versions 5.1 and 6.0). Your correspondence has never looked so good. Press a few keys and -- presto! -- you'll retrieve a letterhead, fax cover sheet, invoice, or up to 11 other forms and add any of the 30 graphic messages included, like "Rush!" or "OK to pay" or a scanned signature. Your documents will look classier and more professional. Requires: XT-OK, WordPerfect 5.1 or 6.0 for DOS. ASP.

The Letterhead Kit

5.25" Disk # X701.....\$3.69

Improve your grammar

write better

With Grammar Online! your writing will improve immediately. You'll have instant access to grammar and mechanics rules from within your word

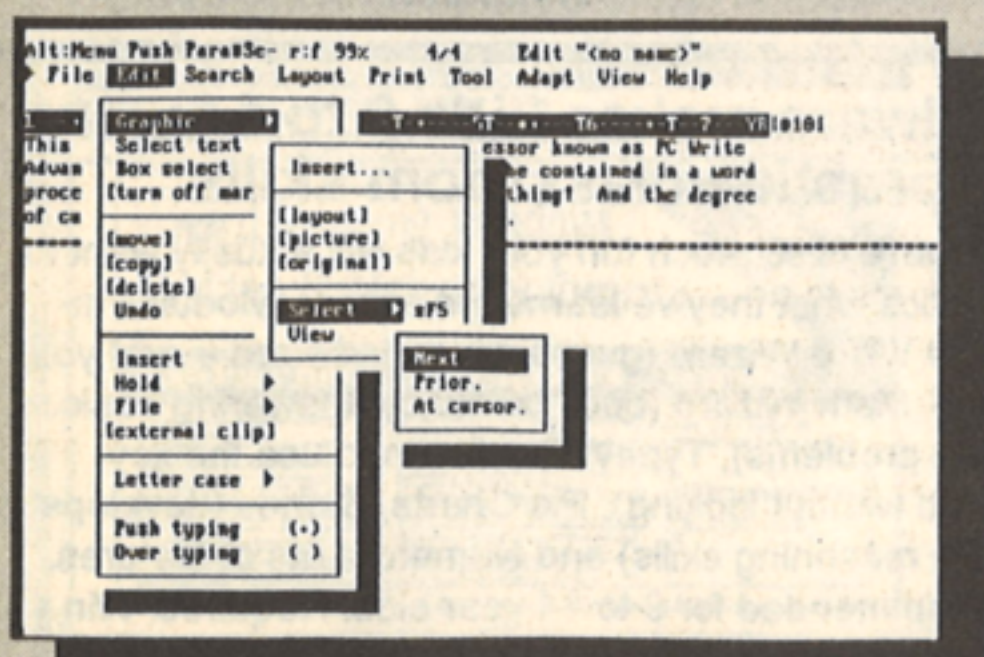

processor. This is not a grammar checker. They're notoriously inconsistent and quirky. Grammar Online! provides you with the information you need to make correct grammar decisions including the most common difficulties: correct use of commas, apostrophes, dangling modifiers, prepositions, pronoun usage, sentence fragments and more. You'll get a clear statement of the rule and an example. Menu groupings are based on the most common errors found in the writing of college freshmen. Requires: XT-OK.

Students, Teachers and Parents love Math Maniac

This full-featured basic math tutorial is a big hit with everybody. It's like an automated flash-card system with some genuine personality. Math drills are presented and youngsters are either complimented or gently kidded depending on the accuracy of their answers. After three wrong choices the computer displays the correct answer and moves on. Records are kept and students are pushed to achieve mastery of each of the eight levels. Keeps track of up to 20 students. You can print tests for written practice, too. Requires: XT-OK. Optional: printer.

Save thousands on your mortgage -- pay it off early

According to news reports 14% of homeowners are making additional principal payments on their mortgage every month. Why would they do that? To pay

off the loan faster, build home equity, and save big bucks. The **Loan Accelerator** will give you a detailed analysis of how much you can save. You'll also learn exactly how to make those payments. It's easy, but don't try it until you know how. The savings are amazing. A \$10 increase per month can save \$12,000 over the life of a typical 30 year loan. Similarly, a one time payment of \$1,000 would save over \$11,000 over 30 years. All loan calculations are available on-screen with graphs or print your findings (including amortization schedules and savings). Runs under DOS or Windows 3.0 or 3.1. Requires: XT-OK.

3.5" Disk # X3172\$3.69

UTILITIES

If you have PKZIP, these are "must have" utilities

PKZIP Utilities consists of three great programs! First, **ACZAR** is a heavy-duty shell program that includes a powerful system to view, edit, backup and restore compressed files (ZIP, LZH, ARJ, ARC and others.) **NARC** allows you to de-archive ZIP files via an easy-to-use menu. This lightning fast program lets you move from ZIP file to ZIP file with the option of viewing, printing, extracting or deleting the files from the archive. Finally, **PKLITE** puts your programs on a diet to save disk space. It compresses programs, but still allows you to run them. The program automatically uncompresses in memory so fast you won't notice any difference. Requires: PKZIP, XT-OK. ASP.

PKZIP Utilities

3.5" Disk # X3139 \$3.69

Change your AUTOEXEC.BAT and CONFIG.SYS in an instant

Reconfiguring your AUTOEXEC.BAT and CONFIG.SYS is a virtual necessity when you run different programs or if you run both DOS and Windows. But what a pain, especially if you want to try out a new program that requires a different configuration. **Reconfig** allows you to juggle up to 100 different combinations of AUTOEXEC.BAT and CONFIG.SYS with its integrated editor and easy-to-use pull-down menus. Just create your configuration, save it, then select it by name and press a key to reboot. A great time saver. It can also be used from the command line. It protects your original AUTOEXEC.BAT and CONFIG.SYS from installation programs that insist on modifying them. Requires: VGA+, mouse, printer.

Reconfig

3.5" Disk # X3373 \$3.69

Got a fast IDE drive? Make it go even faster!

Yep. Even the speediest IDE drive has the ability to work even faster. **DiskQwik** is a device driver for IDE drives only. It activates the drive's Multiple Sector Block Transfer Mode. Say what? This little gem can boost your drive's data transfer rate by 45%!! (Actually, the Shareware version gives a 15% increase, but 45% can be yours if you register.) You'll also get an IDE inquiry utility to tell you if your drive supports MSBT and a test to measure the results. Most newer IDE drives support MSBT. Requires: 286+, IDE hard disk.

Save disk space and modem time by compressing files

PKZIP has loads of new features including improved compression and uncompression, tighter compression, store large compressed files

over more than one disk, password protection, automatic detection and use of 80386 and 80486 CPU, EMS and XMS memory and lots more. **PKZIP** will compress your files, often to as little as 50% normal size. So what? Well, compressed files are smaller so you'll have more space available on your hard disk. Also, compressed files travel faster via modem which means dollars saved. Also included are **PKUNZIP** to uncompress files, **PK2EXE** to create self-extracting files and a junior version of the unzip program that is extremely small and uses very little memory. Requires: XT-OK. ASP. (Check out companion products, **PKZIP Utilities**.)

PKZIP

New! Six Exciting Adventure and Action Games

This collection includes six popular games. In **Cosmo's Cosmic Adventure** Cosmo's ship is struck by an asteroid and his parents are abducted! Cosmo must make an epic journey across a forbidden planet full of dangers and surprises. Top-notch animated graphics, huge animated creatures, massive levels (yet easy to explore).

In **Crystal Caves**, Milo scours the 16 underground caves in search of anything to turn a quick buck. Lots of enemies, switches and levers plus hidden gems. This game is packed with graphics and features the smoothest animation you're ever likely to run into.

Explore the underground maze of tunnels, but be sure to remember your magic spells and your trusty sword. In **Moraff's World** you can collect fabulous wealth, but a moment's inattention can spell your doom!

Captain Comic combines Nintendo-type action with puzzles and logic problems. Your mission is to recover three treasures. Eight levels with plenty to challenge you.

Ultra high-speed smooth-scrolling graphics, superb sound effects and a Vorticon invasion force await **Commander Keen** on Mars. It's fast, highly colorful, imaginative, and fun!

Speaking of Mars, you'll have a chance to blast your way through **The Monuments of Mars**. Requires: 286+, VGA.

World class pinball arcade action!

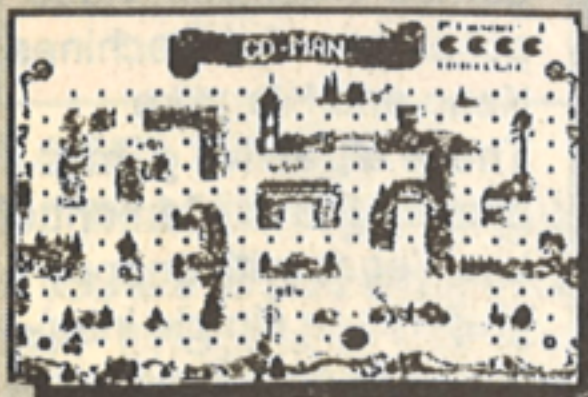

Epic Pinball is a technical tour-de-force and the most stunning pinball game we've ever seen. It's got gorgeous 256-color scrolling VGA graphics (60 frames per second!), topnotch

digital music score and sound, and ultra-realistic pinball action. You can even nudge the board! On screen you'll see a moving window that follows the ball. The windows scrolls smoothly up and down as you make an increasingly-challenging series of shots to bring the android to life. The dazzling graphics, real pinball sounds, and authentic look and feel make this Epic Megagames product a great game for the whole family! Requires: 386+, VGA+. Optional: SB, Gravis Ultrasound.

Epic Pinball

3.5" Disk # X9133 \$4.99

Own your own Video Arcade!

It's like you installed a video arcade on your own computer with six exciting games. **CD-MAN** is a delightful update of the maze game

Pac Man. In level one CD-Man must scoot around a vividly colored maze and gulp all the pellets while being chased by four hairy, crawly spiders. The maze is full of obstacles including a river, tunnel, a gate and more. Three sensational levels!

Ms. PacMan is an absolutely perfect copy of the video classic. It looks the same. It plays the same. It even has the same cartoons. Major flashback, Dude! **Superball** is a bright and flashy breakout game. Move your flying paddle back and forth to control the

bouncing ball as it destroys the colorful wall. Avoid bombs, catch coins and other objects for protection, extra lives and bonuses. Outstanding play action. **Brix** from Epic MegaGames is an arcade and puzzle masterpiece. The task seems simple: eliminate all colored bricks by uniting them. But the 112 levels also include lasers, elevators, boiling acid, anti-gravity, teleporters, and more.

Wild pinball action with **Moraff's Pinball**. It looks and plays just like the real thing. Five flippers and up to five balls at a time. Plays from the keyboard.

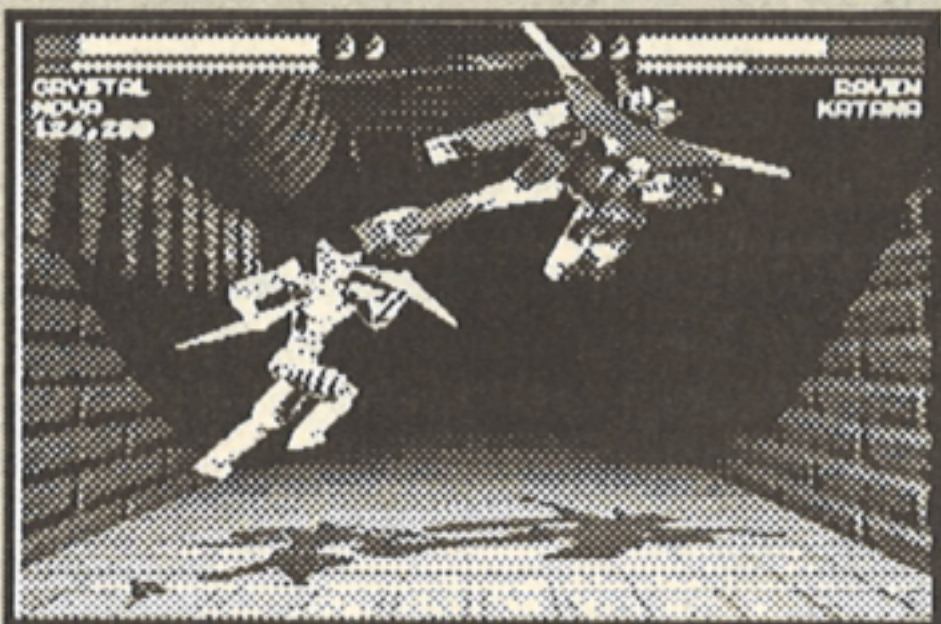

Bananoid is a colorful, mouse-controlled breakout game.

Requires: 386+, VGA. Optional: joystick, mouse, SB. ASP.
